WORKPLACE FUNDRAISING TIPS

Workplaces love to support the community they are in, and many workplaces have a matched funding program or allocation in their budget to donate to charitable causes. Even if your employer doesn't have a program or process in place, they may still be willing to donate to you and/or your team. You won't know until you ask!

Even if you are not representing your organisation, you can still ask if your employer will be willing to support you for the McDonald's Townsville Running Festival.

Who to ask

Speak to your HR department, your manager, or your CEO. Ask if your company matches funds or has a program in place to donate a certain amount to charitable causes. Let them know about the event, the charity you are raising funds for, and the community you are supporting. It's all about context!

How to ask

Face-to-face is the best way to communicate your message, your fundraising goal, and to ask for support. If this isn't possible, send an email with a link to your team page or call the appropriate person. You may be asked for a letter or email outlining your proposal, or other supporting documentation- which we can provide you with, easy peasy!

The Kicker

Offer to put your company's logo on your fundraising page to publicise the fact that they're helping you achieve your team's goals and making a difference in the community. That's great marketing for any organisation!
